

## **Perfect Factories for the People**

In August 2024, the respected Comrade Kim Jong Un gave field guidance at regional-industry factories under construction in Hamju County.

Looking round the construction sites, he expressed satisfaction at the fact that the quality of construction was ensured on a high level. Noting that the industrial establishments under construction in 20 cities and counties across the country in the first year of the regional-industry revolution are the entities clearly representative of the civilization and development of our style and the epitome reflecting our conscience, ideals, strenuous efforts and fighting will, he stressed that there should not be any trifle defects in the structures to be built as the wealth for the good of the people.
