

Prerequisite Task

In September 2024, the respected Comrade Kim Jong Un made a significant speech on the orientation of state affairs on the occasion of the founding anniversary of the Democratic People's Republic of Korea.

He said: The prerequisite task the Party and the government should place particular importance on and vigorously push forward is to implement the regional development policy in the new era in an unconditional and perfect way. There is no more urgent revolutionary task than this one, whether it is seen from the fundamental principle of activities of our Party and state that are orienting all the work of the revolution and construction to firmly defending and ensuring the rights and interests of the people and constantly expanding the policies for their wellbeing whatever the conditions and circumstances may be, and from the viewpoint of the current situation when epochal regional transformation has become the most important task and indispensable requirement for comprehensive development of socialism and the country.
